

Technical Bulletin

Genes that fit your farm.

SeCan

Canada's Seed Partner

Altitude R2

2725 HU (RM 0.6)

- ✓ Highest soybean yield potential available for its maturity rating
- ✓ Good podding height, and no pod shattering
- ✓ Short plant stature, not a showy variety
- ✓ Caution positioning on acres with a history of SCN

Intermediate Canopy
Short - Medium Height

CHARACTERISTICS							
Trait	Hilum Colour	Plant Height	Standability	Canopy Type	Flower Colour	Pubescence	Pod Colour
Roundup Ready 2 Yield®	Brown	Short – Medium	1.2	Intermediate	Purple	Light Brown	Brown to Dark Brown

MANAGEMENT	
Row Width (")	Soil Type
7.5 – 30	All

DISEASE & PATHOGENS			
SCN Resistance (Source)	White Mold	Phytophthora Root Rot Field Tolerance	Phytophthora Root Rot Resistance Gene(s)
No	1.6	MS - S	3a

Data values were collected under different management practices at different locations in different years, and are for comparison purposes only
Standability and white mold ratings on a scale of 1-5; 1=best, 5=worst
MS = Moderately susceptible; S = Susceptible

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate. Roundup Ready 2 Yield® and Roundup Ready® are registered trademarks of Bayer Group. Used under license.
